

Technical Data:

- Weighing-range: - 3000 kg / 1 kg div.
- Platform dim. (A,B): 1.500 x 1.500 mm
- Overall dim. (D,E,) : 1.618 x 1.618 mm
- Thickness (C): 100 mm
- Weight: approx. 400 kg

Filling-Option:

- Valve set (Fill and release)
- Cylinder valve connection
- Hoses, connections, piping

Weighing terminals:

- Various digital terminals
- IT 1000 / IT 3000 / IT 8000
- Connection as 2. scale to other filling unit
- Optional printer- and communication interfaces
- Automatic tare-setting
- Automatic cut off by archieving target weight

Connections:

- Electric: 220V/24V/50Hz, ca. 100 Watt (depending from scale)
- CO₂: Connections as required

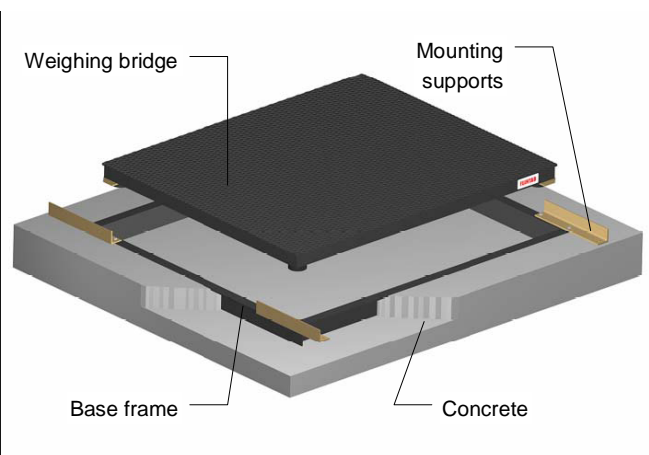

Bundle -Fill

Filling-Scale for liquefied gases

Art.Nr.: (9.00)

Highlights:

- > Rugged platform scale
- > 4 load cells OIML class 3
- > Baseframe to set in concrete
- > Strong weighing platform
- > Easy, precise and save operation
- > Connection to various weighing indicators

Standards:

- > Pressure-Equipment-Directive 97/23/EG
- > Non-Automatic-Scales 90/384/EWG
- > Low-Voltage-Directive 73/23/EWG
- > **CE**
